

GET THE Look

GET THE Look

A retro-chic colour palette and penchant for whimsy and fun results in a youthful event with elegant touches.

FIRST THINGS FIRST—take care of the basics, with the help of luxurious linens. Pin-tucked charcoal tablecloths are sectioned off with yellow satin runners, grounded in the middle with polished silver candelabras. Taper candles lend a warm glow, and small monochromatic floral arrangements pack a big punch. Try Billy Balls (Craspedia) in silver julep cups, or single cymbidium orchid blooms nestled in glass spheres. Add in the occasional white hydrangea or variegated aspidistra leaf for extra oomph, at key places like your bar or guest book table.

GHOST CHAIRS create a modern feel that doesn't add extra texture. Spice them up with customized decals to set apart chairs of honour—like yours and your new hubby's!

IT'S IN THE *details*

Keep everything together by repeating a common design. Here, the silhouette image is featured on the Gobo that matches the chair clings, water bottles, all printed products, framed table numbers, and of course, that candy bar.
